BeeMaid

The Story of Honey

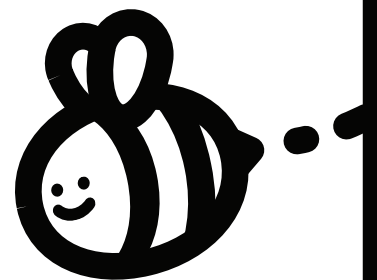

Beekeepers work with honeybees every day.

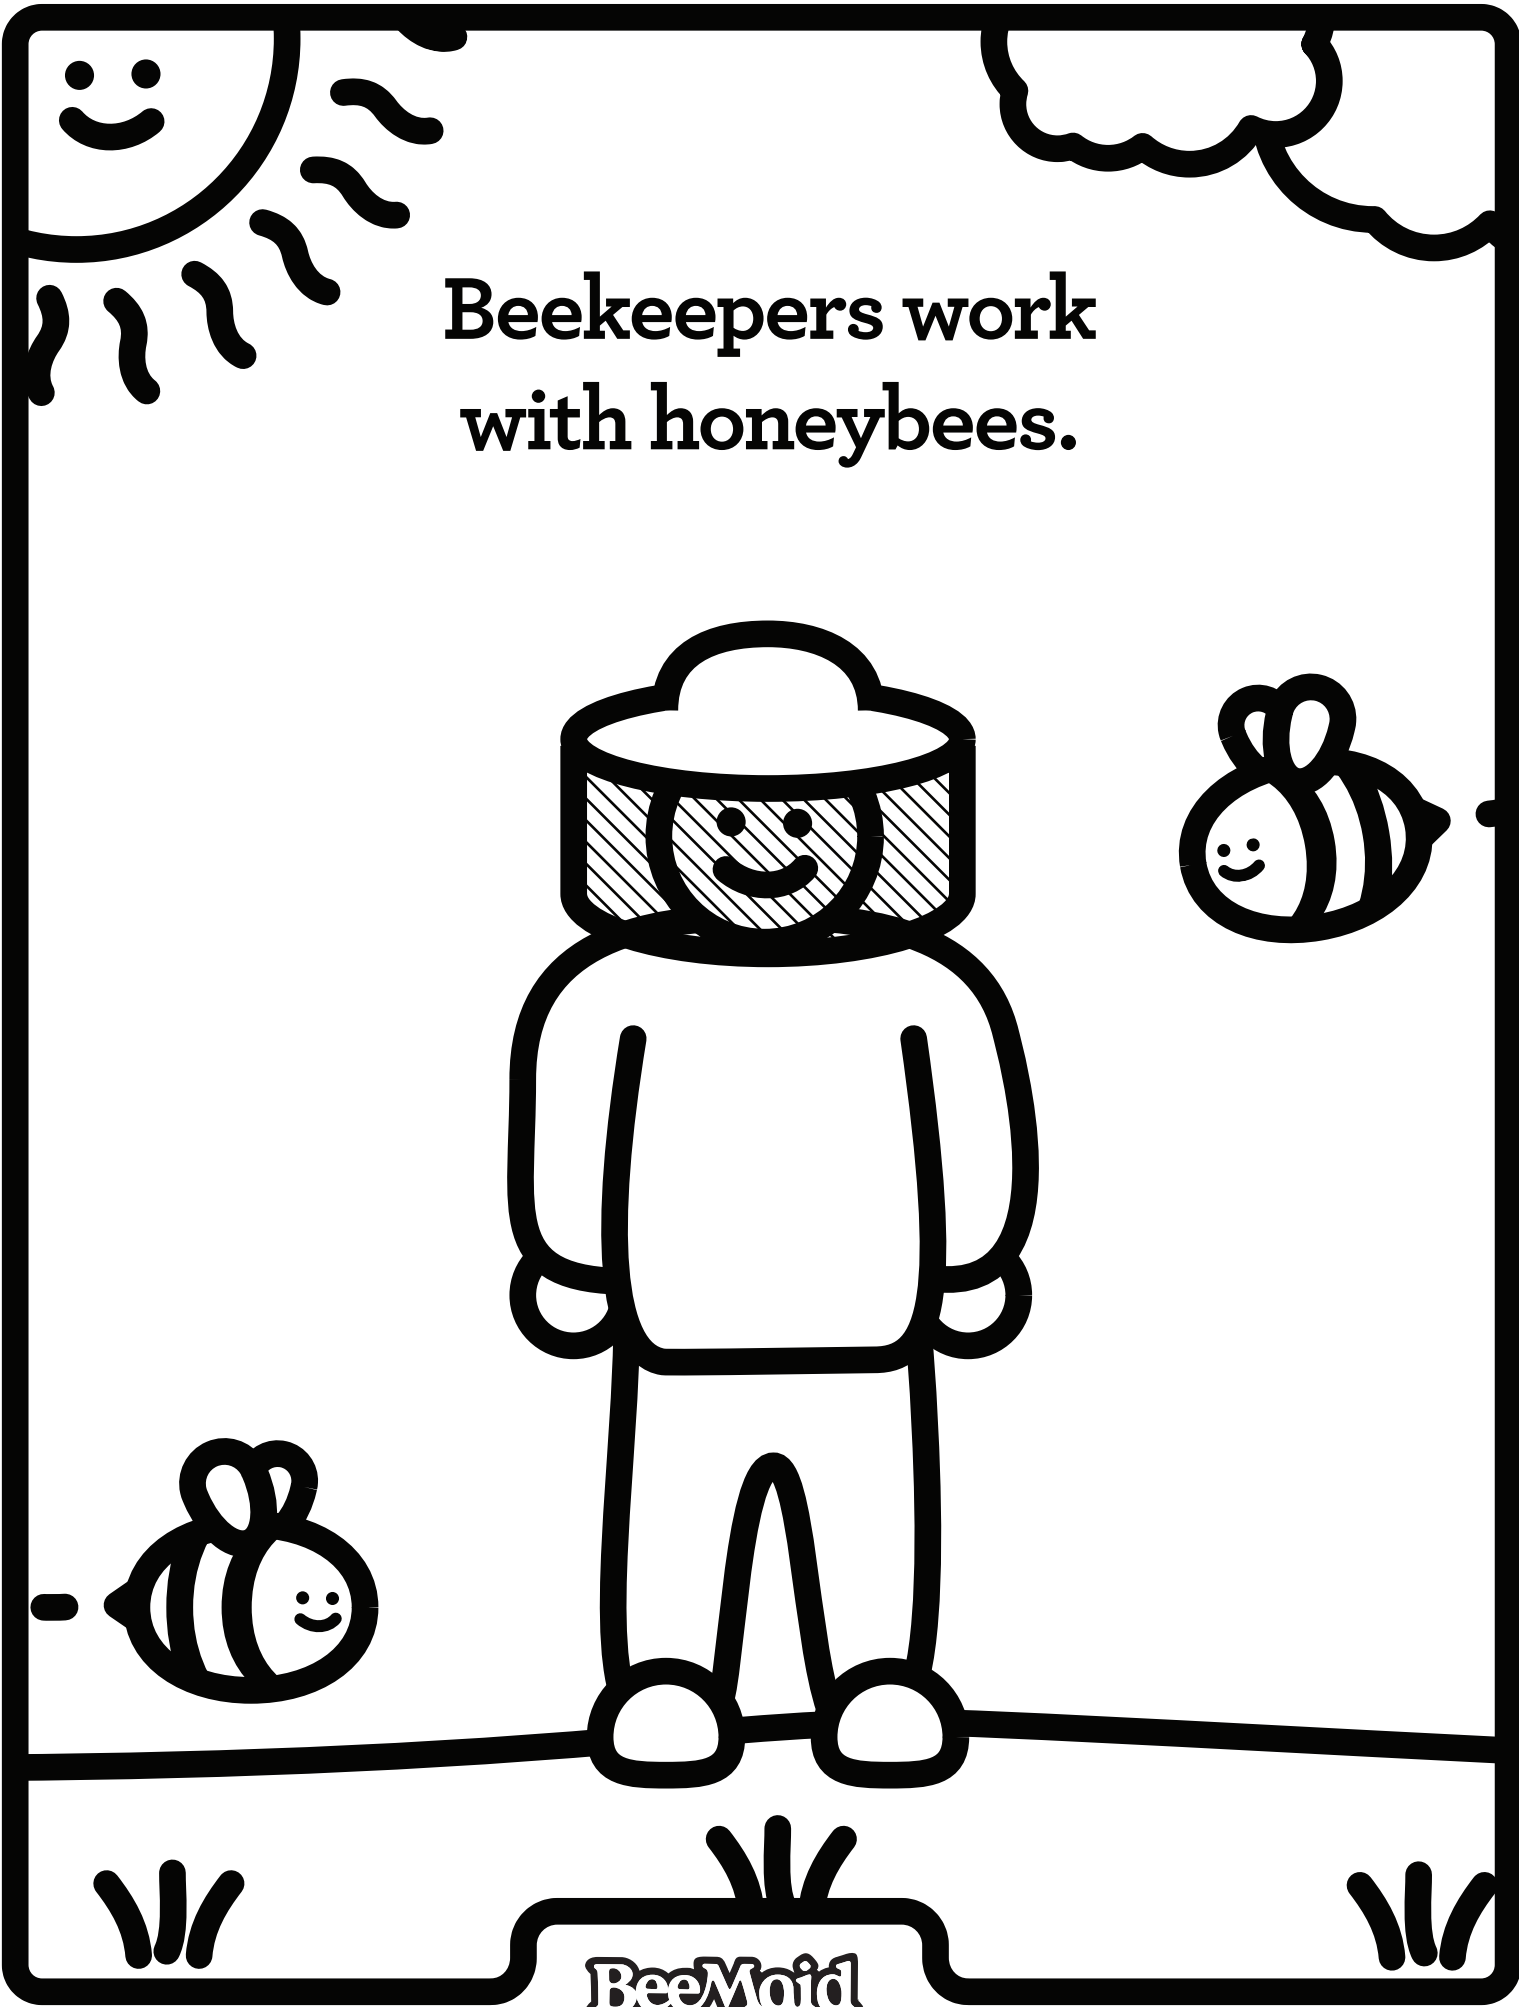

They keep honeybees in boxes called, “supers”.
Honeybees make honey inside the supers on
man-made shelves called, “frames”.

Beekeepers wear protective clothing
so the honeybees won’t sting them.

They have a special tool called a
smoker to calm down the honeybees
when they take the honey.

All the honey collected by beekeepers is
put into barrels and sent to Bee Maid Honey.

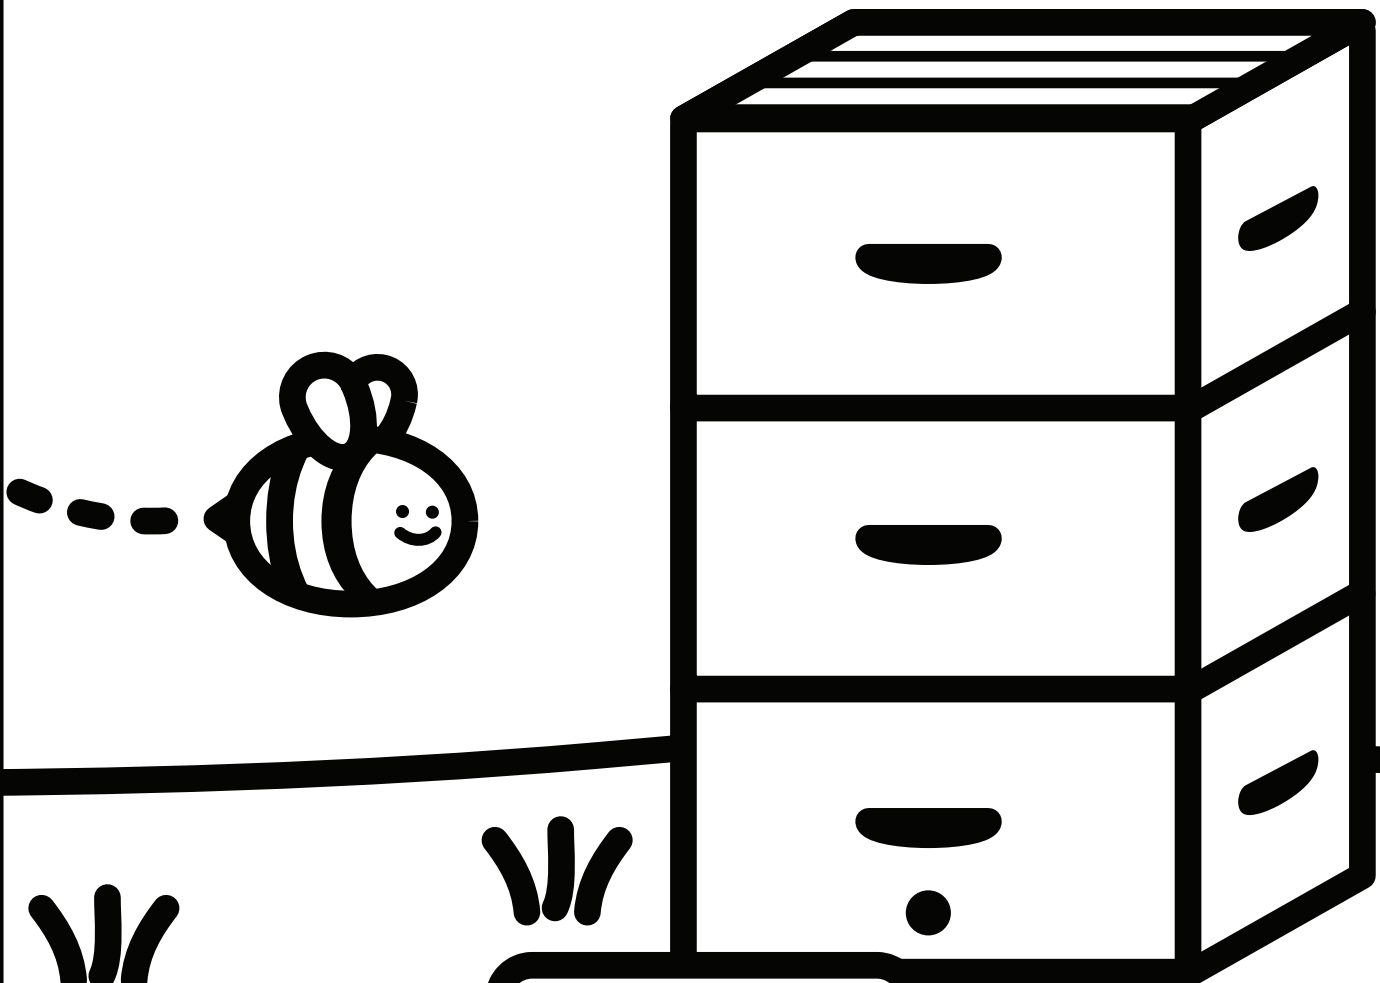

Beekeepers work
with honeybees.

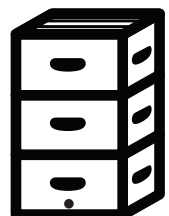

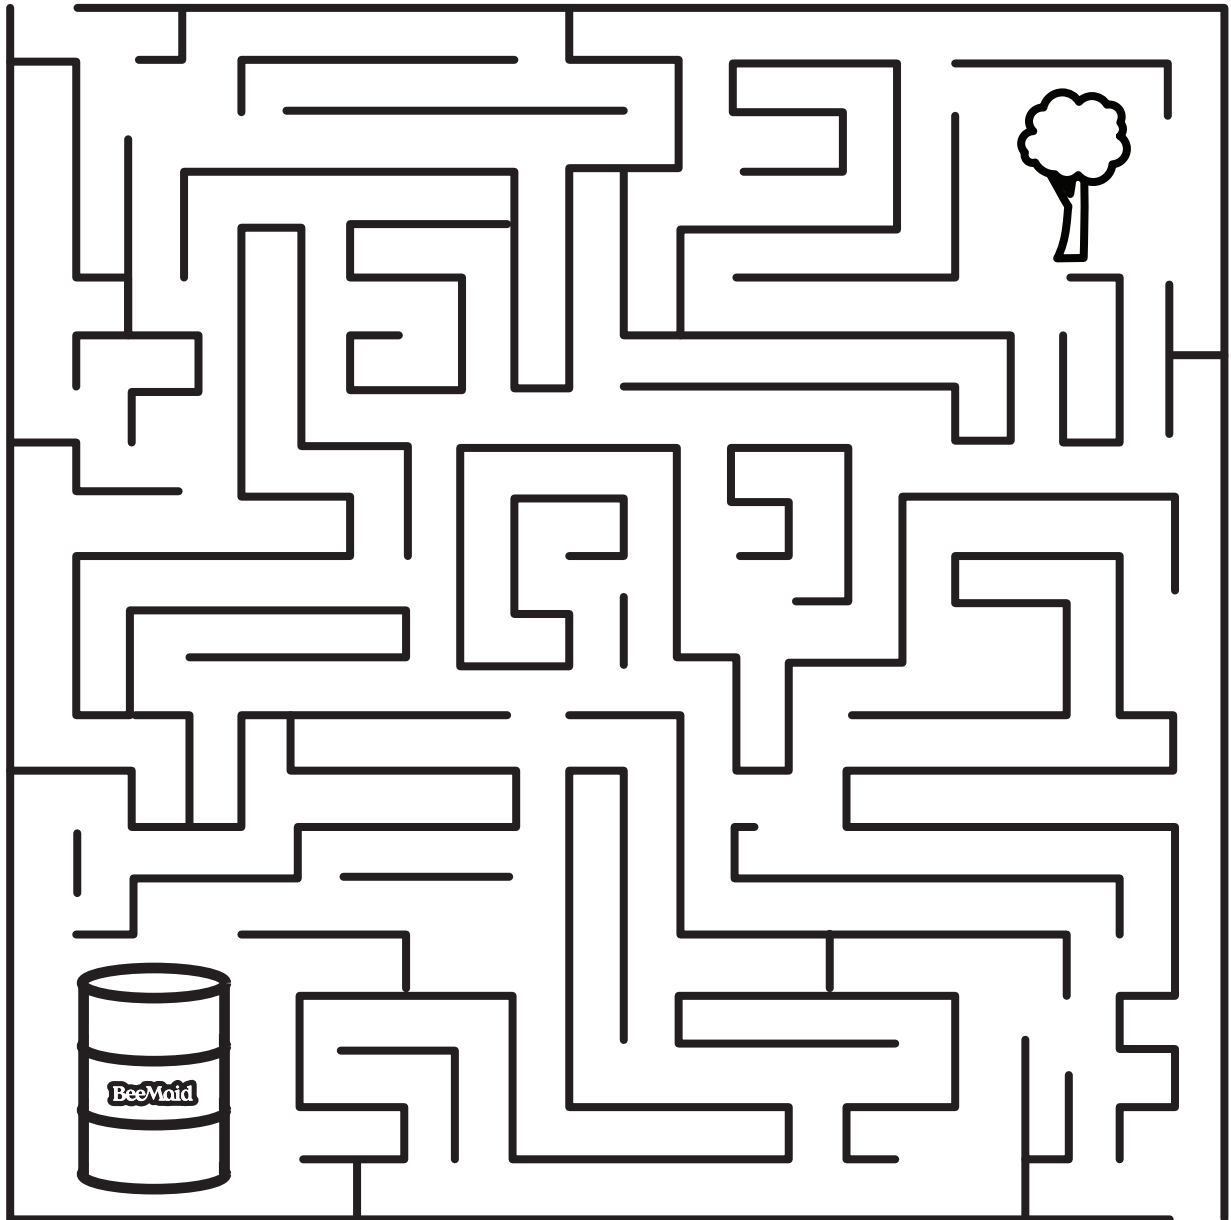

BeeMaid

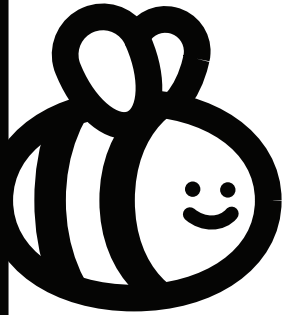

**Beekeepers keep
their honeybees in
boxes called, “supers”.**

Help the honeybee get to the super!

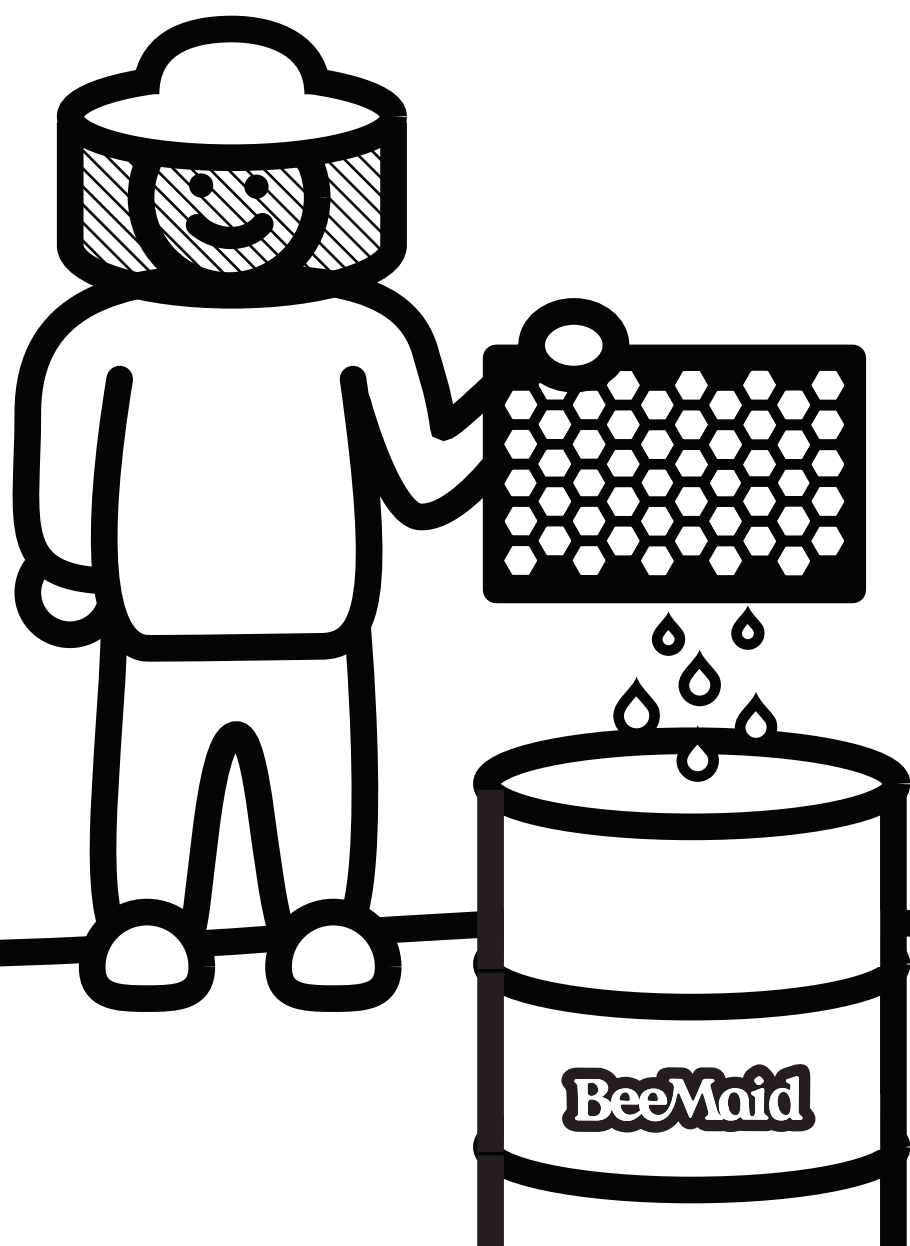

BeeMaid

**Inside the supers,
honeybees make honey
on shelves called, “frames”.**

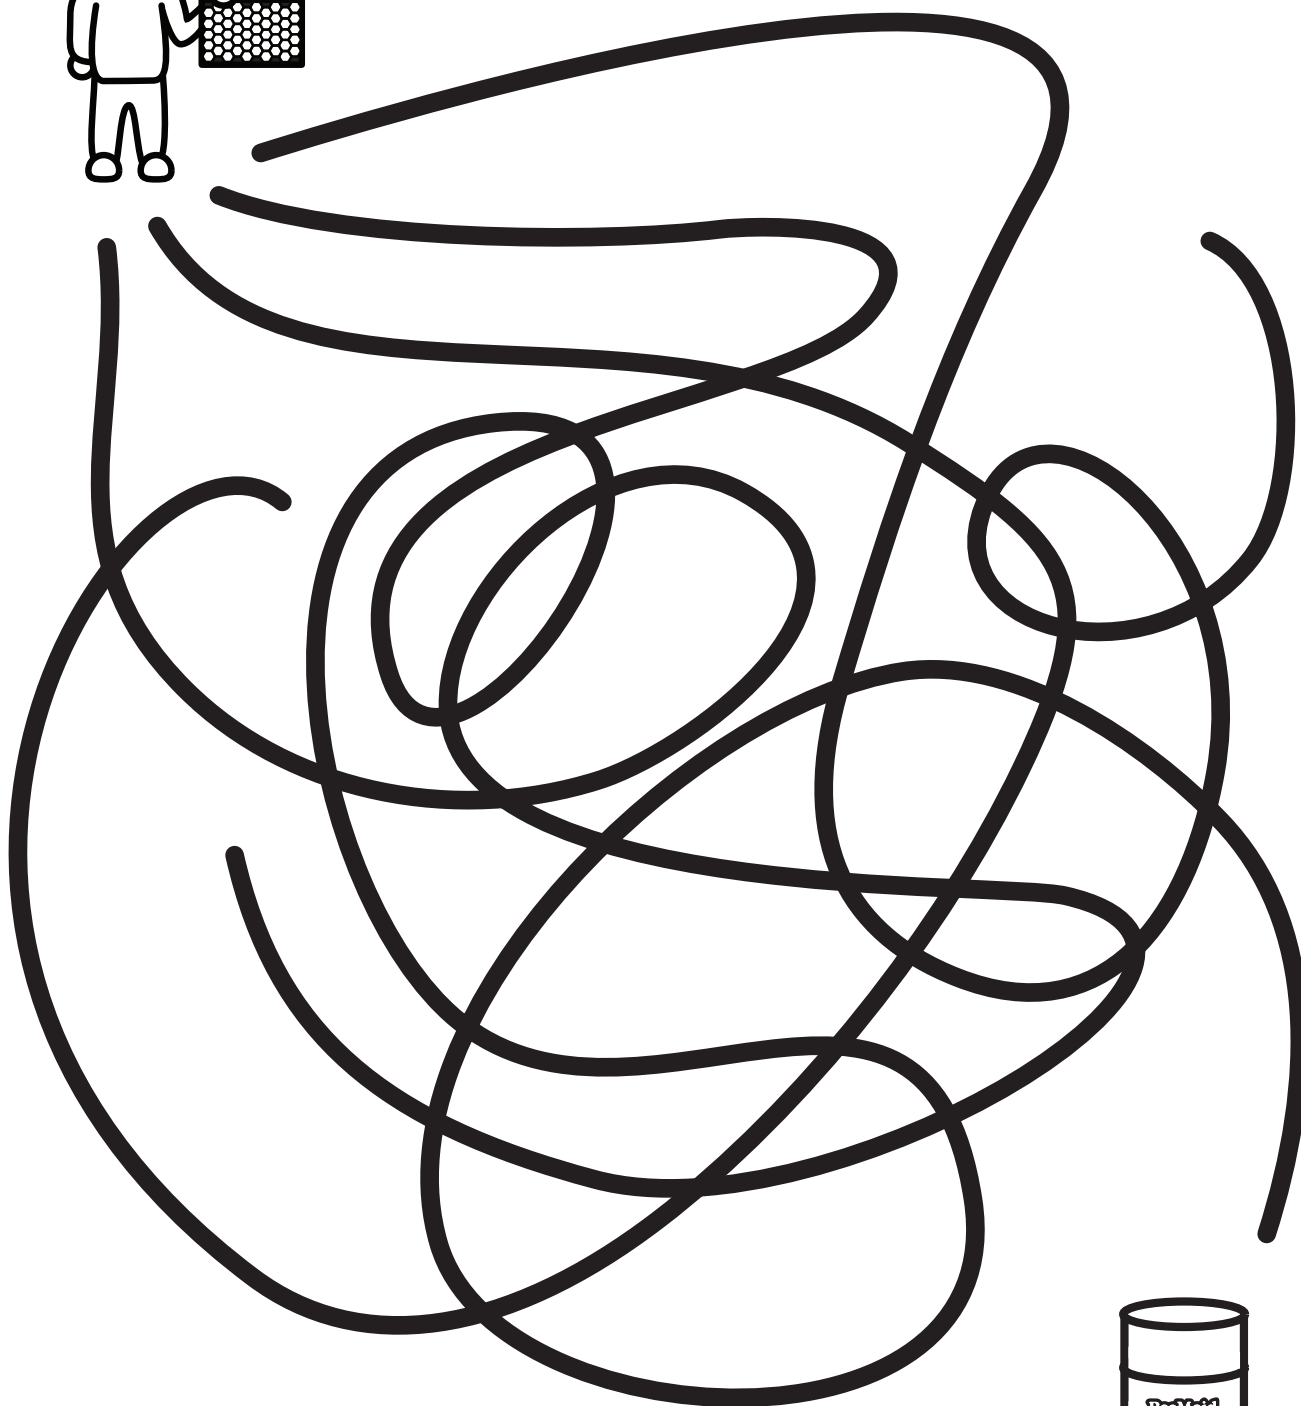

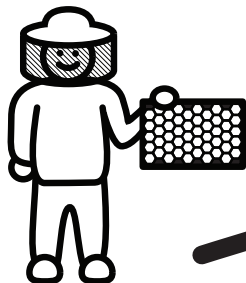

**Beekeepers move the
honey from the frames
into big barrels.**

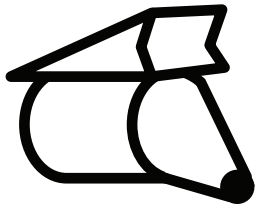

BeeMaid

Which path gets the
beekeeper to the barrel?
